

CREW EVALUATIONS

Although the work in our project is individualized, students are a part of a crew. This crew is a working circle that will promote quality work, hold individuals accountable for their work, and critique each other's work. Collaboration is a skill that leads to life-long success and through the crew students will reflect and plan in order to remain on schedule.

Requirements:

- Students will be reviewed on the 10 point scale on the right.
